Summary

As a Computer Science Engineering student specializing in Data Science, I have a strong foundation in Java, Python, C, and JavaScript, along with hands-on experience in full-stack development and database management. I am passionate about building innovative projects in web development and AI/ML, and eager to contribute to impactful real-world applications while continuously enhancing my technical expertise.

Skills

Languages: Java, C, Python, HTML, CSS, JavaScript

Libraries & Frameworks: React, Node.js, Flask

Database: MySQL, MongoDB

Projects

Resume Analyzer

- Developed a web-based application for automated resume screening and shortlisting.
- Implemented recruiter and job seeker modules with resume parsing and skill matching.
- Built with HTML, CSS, JavaScript, and Node.js, integrating MongoDB for data storage.

YouTube Watch History Analyzer and Recommendation Modifier

In-Progress

- Built a full-stack system to analyze YouTube watch history and provide skill-based recommendations.
- Developed Chrome Extension for extracting history and backend with Node.js + MongoDB.

Portfolio Website

- Created a personal portfolio website to showcase projects and skills.
- Designed with responsive layouts using HTML, CSS, and JavaScript.
- Deployed on Netlify for easy accessibility and maintenance.

Education

Bachelor of Engineering – Computer Science and Engineering (Data Science specialization)

Vivekananda College of Engineering and Technology, Puttur

2021 – Present | CGPA: 7.52

Pre-University – PCMC

Ambika PU College, Puttur

2019 – 2021 | Percentage: 82

SSLC

Pragathi English Medium School, Kaniyoor

2019 | Percentage: 90
